

Slim Interface Relays

Overview

Murrelektronik Slim Interface Relays are highly compact and lightweight relays especially useful where cabinet space is a consideration. Encased in a self-extinguishing plastic housing, these high quality relays offer a long useful life. Great for use with PLC automation systems, electric power plants, energy management systems, medium voltage panels, industrial machines, and more.

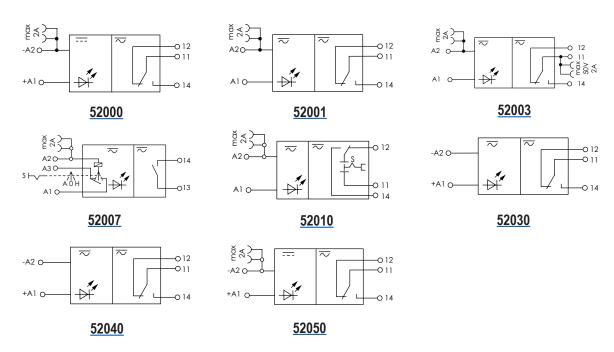

Features

- 35mm DIN-rail mount
- · Slim 6.2 mm design
- Finger safe
- Status Indicator LED Relay energized
- DC and AC supply voltage options

Slim Interface Relays
